VEGETABLE AND FRUIT WOVEN BAGS

STORAGE BASKET

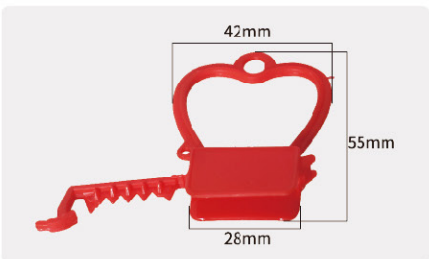

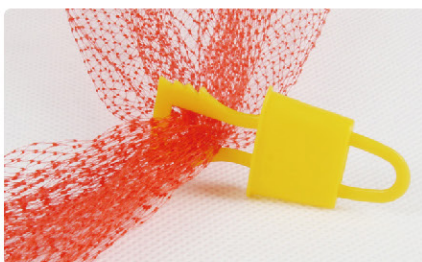

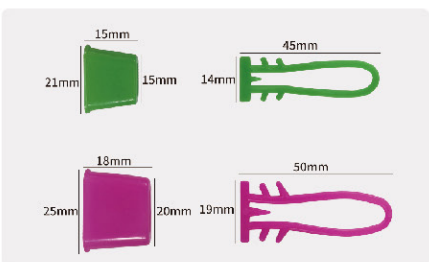

product parameters

product name	Storage basket
product material	hdpe
product size	mouth diameter 150mm* bottom diameter 115mm* height 90mm mouth diameter 130mm* bottom diameter 100mm* height 80mm
Function	To Storage Eggs,Snacks,Candy&Toys

NET BAG SEALING CLIP

product name	product material	product size	product color
crown shape clip	pp material	55*42*28mm	several colors available
round clip	pp material	using dimensions: 55*25 mm、50*21 mm	several colors available

KNITTED TUBULAR NET

product parameters

product name	Knitted Tubular Net
product material	PE
product specification	200m/roll, 50 pcs/bundle, 430mm/pc
product function	Packaging Fruits and vegetables

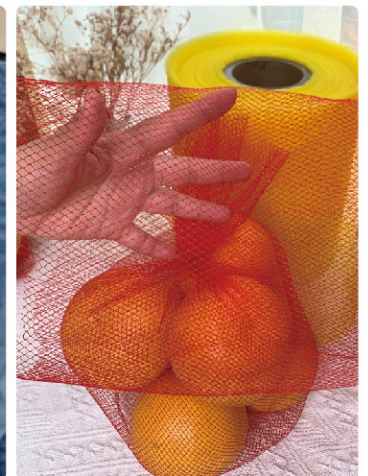

QUALITY FRUIT WOVEN MESH BAG

product parameters

product name	quality fruit woven mesh bag
product material	pe material
product specification	width 20cm, length 550m, 11kg/roll
product function	suitable for various supermarkets, fruit stores

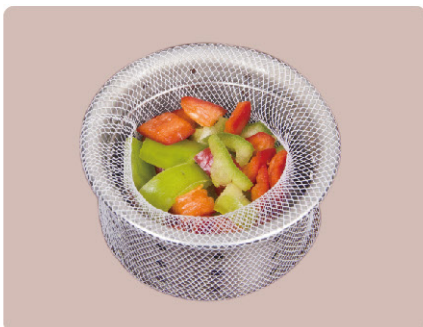

OTHER NETS

protective net sleeve for wine bottle

protective net sleeve for mold

drainer net

PVC CLING FILM ROLL

product parameters

product name	PVC Cling film roll
product Specification	250mm/300mm/350mm/400mm/450mm*400m
product material	pvc
product feature	Strong resilience,Antifogging,Eco-Friendly

CLING FILM JUMBO ROLL

product parameters

product name	Cling film jumbo roll
product Specification	400mm*1000m
product material	pvc
product feature	3-Strong resilience,Durable,Multifunctional

VEGETABLE BUNDLING TAPE TAPE

product parameters

product name	Vegetable bundling tape
product Specification	1.2*600mm
product material	OPP as base material
product feature	high viscosity, no degumming

PE BINDING FILM

product parameters

product name	pe binding film
product Specification	40mm/50mm/60mm/80mm/100mm*200m
product material	pe
product feature	tough, good elasticity, not easily broken

ELECTRIC WRAPPING MACHINE OP-450P

product parameters	
product name	electric wrapping machine OP-450P
product Specification	530*510*260mm
product material	main body stainless steel
product feature	suitable for cling film width within 450 mm

ELECTRIC WRAPPING MACHINE OP-450W

product parameters	
product name	electric wrapping machine OP-450W
product Specification	470*603*114mm
product material	main body stainless steel
product feature	suitable for cling film width within 450 mm machine use large roll film can be used

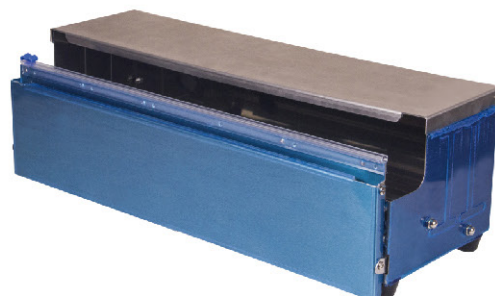

MANUAL WRAPPING MACHINE OP-450E

product parameters

product name	Manual wrapping machine OP-450E
product Specification	500*200*165mm
product material	main body stainless steel
product feature	suitable for cling film width within 450 mm

AUTOMATIC WRAPPING MACHINE OP-AM1

product parameters

product name	automatic wrapping machine OP-AM1
product Specification	840*888*1415mm
product material	main body stainless steel
product feature	suitable for cling film widths 350-500 mm

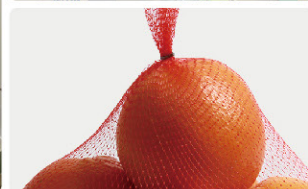

711 SEALING MACHINE OP-711A

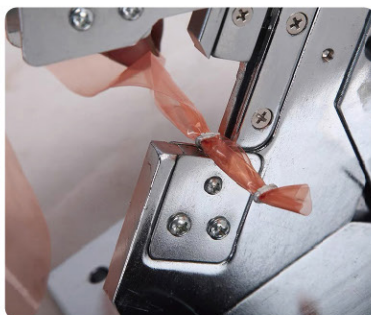

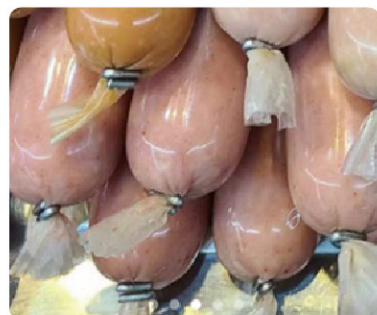

product parameters

product name	711 sealing machine OP-711A
product Specification	390*330*140 mm
product material	stainless steel structure
product feature	stable, safe, cost-effective, convenient and fast

506 SEALING MACHINE OP-506A

product parameters

product name	506 sealing machine OP-506A
product Specification	670*430*230 mm
product material	high density precision steel manufacturing
product feature	used for sealing sausages and some packages

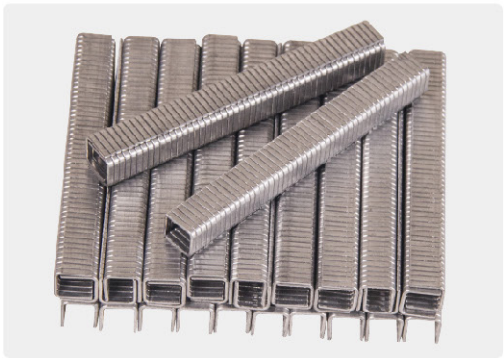

711 Aluminum U cliper

product parameters	
product name	711 U cliper
product Specification	height 12mm*width 7mm*thickness 1.5mm
product material	Pure Quality Aluminum
product feature	4-Strong,Durable,perfectly fit the bag sealing machine

502/506 Aluminum Nails

product parameters	
product name	502/506 aluminum nails
502 Specification	height 11mm*width 11mm*thickness 1.5mm
506 Specification	height 12mm*width 11mm*thickness 1.5mm
product material	made of standard super pure aluminum
product feature	toughness, used to seal sausage and package

PNEUMATIC SEALING MACHINE

pneumatic sealing machine OP-506QE

Product parameters	
Product Name	pneumatic sealing machine
Product Material	stainless steel thickened body
Product Size	506 staple
Product Feature	automatic sealing, high efficiency and no staple stuck

plastic bag

net bag

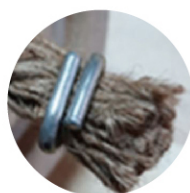

ham sausage

product advantages

The pneumatic sealing machine has a long service life, fast sealing, and no air leakage. It is suitable for continuous and fast sealing of various items such as food, chemical, feed, and industrial packaging. The bag after bundling has good air tightness, completely solving the problems of poor manual sealing and low work efficiency. The aluminum buckle is used for sealing, which is sturdy and not easy to fall off. It is time-saving and labor-saving, with good sealing performance, and can be matched with continuous work on the assembly line.

TAPE SEALING MACHINE

Product parameters	
Product Name	Tape Sealing Machine
Product Material	Heavy Steel
Product Size	230*80*160mm
Product Feature	Portable,Durable,Easy to operate

VEGETABLE BINDING MACHINE

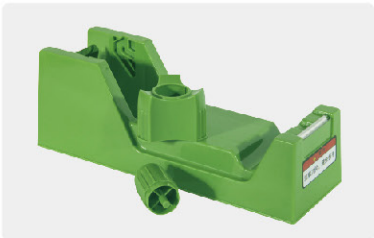

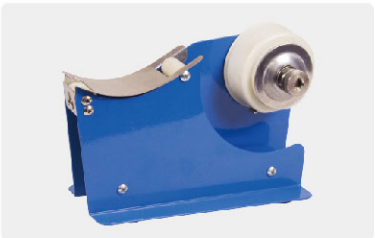

Product Name	Product Material	Product Size
Vegetable Binding Machine (blue)	Steel+Metal Blade	235*90*155mm
Vegetable Binding Machine (green)	ABS+Metal Blade	330*110*115mm

Vegetable Binding Machine (blue)

Vegetable Binding Machine (green)

SEMI-AUTOMATIC NET BAG PACKAGING MACHINE

Product parameters	
Product Name	Semi-automatic Net Bag Packaging Machine
Product Weights	64kg
Product Size	840*750*840mm
Capacity	200pcs*2
Clip Model Clip type	U506R
Voltage	220V

Net Bag · Wrap Films · Packaging machine
